Organize In STYLE!

PEOPLE STYLEWATCH contributor **Jill Martin** gives four tricks for making your closet functional *and* fashionable. Plus, she shares some picks from her new QVC line!

“I could never find cute, inexpensive ways to store my clothes, shoes and jewelry—so I created my own!”

JEWELRY STAND

Keep only what you truly love

“Editing down is the first step to a gorgeous, clutter-free area. Rate everything you own from 1 to 10. For me, if an item is not a 10, I donate or consign it.”

Maximize your storage space

“A versatile hanging organizer can be a real MVP—like a tote bag for your closet. Look for one that utilizes the vertical space.”

Put your jewelry on display

“Don’t hide necklaces in a box—layer them on a cute stand or hang them like art on a fabric pinboard. You’re always more likely to wear what you can see!”

Protect shoes, dresses and more

“Garment and shoe bags allow you to keep your special pieces safe. Also, when everything has a place, getting dressed in the morning will be much easier. You’ll save a lot of time—and set the tone for your day!”
